

K-LOVE is a very important station to me as a resident of San Diego because I am fed the the word and people who have questions about Jesus Christ call and get their questions answered; many of the people who call are getting saved. K-LOVE has pastors who pray with people who are in trouble, or need encouragement in any way. I believe that if K-LOVE is displaced with an LPFM broadcaster providing other programming there will be many people who do stupid things such as harming themselves or others. K-LOVE is in the public's interest because they are spreading the information about Jesus Christ to people who may be afraid to go to church or ask someone. K-LOVE is the first thing I listen to when I wake up. The VJ always say the right words when I need to hear something. I beg of you not to take K-LOVE off the air because they give people encouragement and prevent many people from committing crimes.
